# How Dairy!

Listen, Understand, Inspire, Deliver

Cows24-7 Ltd

Welcome to Cows24-7 Newsletter.....

Many of you will have been bored by me before, so you will know what is in store.

The aim is to give you some punchy things to read so that you can fight the dairy corner better or read something that maybe helps you to change something in your business that either makes you more money or makes your life easier...or even both!

There are some exciting things happening and I hope to bring them to you in the not too distant future and this will promote cow welfare, potentially promote your business and also hopefully fuel with good old fashioned farmer friendly knowledge transfer and better farm practice.

Look out for fact sheets, articles, blogs and podcasts coming your way soon.

Thanks for reading. All the best Pete
